ENGLAND IS SATISFIED

The War Progressing Just as the People Want It.

ROBERTS WILL MOVE

He Will Soon Have a Force of Eighty Thousand Men and Baler Forty Thousand to Push the Campaign to Pretoria.

London, March 16.—Events are moving in the South African campaign in a speedy and satisfactory manner to Great Britain both from the military and civil point of view.

It seems that when Major Weston cut the railway north of Bloemfontein he thereby intercepted General Joubert, who far from having retired from the campaign, was then coming southward with 3000 men, presumably to superintend the defense. Elaborate defense works three miles long had been prepared outside the town.

Evidence goes to show that so far as the southern part of the Free State is concerned, there will be no further resistance. It is understood that Mr. Frazier, Mr. Wessels and other leaders are quite prepared to accept the position of a self-governing British colony.

The cheers which greeted the reading in parliament of the correspondence with the United States are re-echoed throughout the country. The speech of M. Delcasse has increased this satisfaction and, taken with the general belief that Emperor Nicholas is possibly averse to any intervention, these indications spread the idea that there will be no further serious attempt to interfere from any quarter.

Montague White's threat, in an American newspaper, that the Boers will sacrifice Johannesburg and raise it to the ground, if necessary, is not taken very seriously. Mr. Chamberlain's statement, that President Kruger had already been warned as to the consequence of such conduct, is regarded as showing that sufficient precautions have been taken.

The Times suggests that the burghers should be warned that their farms will be taxed as a guarantee against any damage to British property, but no serious apprehensions are entertained on such conduct as Mr. White is said to have foreshadowed.

By the time General Roberts reaches the Vaal river he will command some 80,000 men, while General Buller will have 40,000. From the military point of view, the critics now think there is nothing to fear.

A dispatch to the Daily Mail from Lorenzo Marquez, dated Thursday, says that strong commandoes are massing at Warrenton where the Free Staters are going to make a stand.

ROBERTS' SUCCESS.

Doing All He Can to Induce Free Staters to Cease Fighting.

London, March 16.—Roberts' success in handling the civil problems at Bloemfontein and the manifest equanimity with which the residents of the capital of the Orange Free State accept British occupation, momentarily eclipse the interest of military situation. It is believed here that Roberts will push on to Pretoria, but Great Britain is quite content to listen for a few days to the acclamations of the people of Bloemfontein and permit the troops to enjoy a few days of rest before expecting further successes.

General Roberts made a quaint speech to the guards at Bloemfontein when in his first congratulatory words he expressed pride in their splendid march of 35 miles in 28 hours and gave ample assurance of his ultimate design. "By a small mistake," said General Roberts, "I was not able to march into Bloemfontein at the head of the brigade as I intended. I promise you, however, I will lead you into Pretoria."

Gatacre is holding Bethulie and the whole line south of Bloemfontein is now in the hands of the British and Brabant's column having crossed Orange river after a forced march at Aliwal North on Sunday, and Clements column being across at Vanzy, these three columns will form an army of 12,000 to 15,000 men which is expected to replace the forces of Roberts at Bloemfontein as he pushes northward.

Just where the Boers will attempt to oppose that march is an important question but cannot be easily answered until Joubert is more definitely located. Further news has reached the outside world from Mafeking, dated Friday, showing that though the garrison is in hard straits they are buoyed up by the knowledge that their plucky fight is appreciated at home.

London, March 16.—It is officially announced the British casualties at Dreifontein on March 10 were 62 men killed and 321 wounded.

General Roberts reports that he found

seven British officers and 43 men wounded in the hospital at Bloemfontein and they had been well cared for. He adds: "I rejoiced the Boers by telling them they will be allowed to proceed to their homes instead of being made prisoners as soon as they can leave the hospital."

FROM BLOEMFONTEIN.

The Town Offered and Running Under British Supervision.

Bloemfontein, March 15.—General Pretorius is succeeding admirably as governor of the town. He has issued a proclamation requesting burghers within a radius of ten miles to deliver up their arms, assuring them they will be paid for the confiscation of their property.

General Roberts is about to issue fresh proclamations which will have the effect of disarming further opposition upon the part of the Free Staters. Mr. Collings has been appointed landrost, vice Pappas deposed, and Mr. Frazier will act as mayor.

Great quantities of stores, captured at Wasser Fall, have been recovered.

As a result of the Hunter and Weston's line cutting the British have secured 26 engines and the line has been cleared to Kaffir river.

Rumors are current that President Steyn is willing to surrender.

Much unrest exist among the Dutch population.

Brabant Without Sufficient Artillery.

Jamestown, Cape Colony, March 15.—There was much enthusiasm at Aliwal North when Brabant's troops occupied the place.

Commandant Oliver, the Boer commander apologized for the action of the Boers during the last days of occupation, saying he could not control the men.

The British are now entrenched on the Free State side of the Orange river with the Boers holding an advantageous position on a hill in front of them. Brabant is greatly hampered owing to lack of artillery, having only two 15-pounders.

SHELDON EDITION.

The Second and Third Issues up to the Standard of the First.

Topeka, March 16.—The second and third Sheldon editions of the Topeka Capital are up to the standard of the first. From a strict, moral, religious sense the editions are a decided success.

HERBERT S. HOUSTON.
[Manager of the Sheldon edition.]

but when compared to the average first class journals of the country, many features are lacking which takes with the general public. Financially the edition is a decided success.

BAILEY IS COMING

Leaves Washington to Push His Senatorship Cause.

Washington, March 16.—Representative Joe Bailey, former Democratic floor leader in the house and at present acting lieutenant to Mr. Richardson, the minority leader, left Thursday for Texas to begin an extended canvass for United States Senator to succeed Senator Chilton, who is a candidate for re-election. Mr. Bailey opens his canvass on March 24, at Cameron, and will probably remain in the state until the final results are determined in the primaries on June 9. Aside from state issues he will make the present national issues and other general questions features of his canvass.

His Head Split Open.

Big Springs, Tex., March 16.—Tuesday morning G. B. Smith and S. H. Reed became involved in an altercation over a settlement at their home 18 miles northeast of here. Smith attacked Reed with a knife and Reed's brother, Will, interfered. Smith attempted to draw a sixshooter, Will and his brother being unarmed. Will struck Smith with an ax, splitting his head and killing him instantly.

The men are stockmen, and brother-in-laws.

To Frankfort for Trial

Frankfort, Ky., March 16.—At a conference between the county and district court officers here it was determined to have returned here Secretary of State Powers, Harlan Whitaker, W. H. Coulton and Captain Davis, the four alleged accessories to the assassination of Gov. Goebel, and give them a speedy examination trial.

Green ought to be able to hold on to the job of bossing the republican party in Texas without the suggestion by his friends of such a remote possibility as his nomination for vice-president.

Some of the things which are preventing time from hanging heavy on the authorities at Washington are the plague in Honolulu, the insurrection in the Philippines, tariff resistance in Puerto Rico and manifest impatience in Cuba.

Sixteen state Rangers under command of Captains Rogers and McDonald reached town Sunday. They came for the purpose of taking an active part in any little shooting scrape which any of the 300 persons connected with the Jim Coleman trial might feel called upon to engage in between themselves. Fortunately, however, for the good name of the town, as well probably as for the lives of innocent persons who do not care a snap if the whole gang murders each other just so long as they do it decently and in some other part of the country, Judge Thompson sent the case to San Antonio for trial, and the use of this part of the country as a battle ground for two lawless factions has been denied them.—Richmond Coaster.

ABOUT PREPARED CHALK.

Ever have a druggist to tell you, while purchasing your prepared chalk, to wash it? REED-YOUNG.

Palestine, Texas, March 15.—Mr. Stephen E. Reed, of Galveston, and Miss Mabel Gooch, of this city, were married last night at 8:30 o'clock at the home of the bride's parents, 209 Magnolia street. Rev. Dr. Crozier of the Presbyterian church officiated. Mr. and Mrs. Reed left immediately after the ceremony for Galveston, where they will make their future home.

Mr. Reed is a young man well and favorably known in Galveston, where he has a position with the traffic department of the railroad service. He was raised at Bryan, and graduated from the university of Virginia.

Miss Gooch is the only daughter of Hon. John Young Gooch of this city and a leading member of society. She is a graduate of the Palestine schools, a student of the state university and an accomplished musician.

The wedding was a quiet home affair, only the family and relatives of the bride being present. The best wishes and congratulations of a host of friends go with Mr. and Mrs. Reed.

To the Populists of Brazos County.

By authority vested in me as chairman, I hereby call a mass meeting of the Populists to be held at the court house in Bryan, Saturday March 17, at 10 a. m., for the purpose of better organizing, and attend to all business of importance. W. J. BRODSON,

"A Wise Woman."

One of the cleverest combinations this season has been secured as the attraction at the Grand, Wednesday, next, March 21. The company referred to is headed by Miss Marie Lamour, heretofore a prominent and attractive member of Augustin Daly's New York company. The play through which Miss Lamour will be introduced to our theatre goers is Wilfred Clark's London great comedy success "A Wise Woman." Miss Lamour and her company have been accorded the highest praise everywhere they have appeared and it is claimed for them that they take a high position among the standard metropolitan attractions of the day.

Frederic Murphy, whose splendid talents are well known to many patrons of the drama, and who last season occupied the important position of leading man for Julia Marlowe, has been engaged to appear in the same capacity with Miss Lamour's organization. The balance of the supporting company is said to be an equally high order of merit. Mr. Clark, who did the staging of his company when it was put on at the Strand theatre in London, where it ran for 238 nights, has looked after this important detail for Miss Lamour.

WASHINGTON NEWS.

Two Republican Senators Have a
Wordy Scrap

OVER THE QUAY CASE

Mr. Penrose Charges That Certain Sen-
ators Were Obstructing the Vote
and Mr. Gallinger Took it
up—House Proceedings.

Washington, March 16.—"I assert most emphatically that when the senator says that I told him I would not speak on this subject he does not speak the truth."

This was the sensational retort made in the senate yesterday by Mr. Gallinger. (Rep. N. H.) to a statement made by Mr. Penrose, (Rep. Pa.).

Senators were astounded and the people in the galleries quivered with excitement. There had scarcely been the slightest intimation that the debate would take such a turn.

For nearly three hours the senate had had under discussion the bill appropriating \$2,095,000 for the benefit of the people of Puerto Rico. Mr. Fairbanks of Indiana, had just concluded a speech on the measure and suggested that the senate proceed to the consideration of executive business.

Pending a motion to that effect Mr. Penrose, who has charge of the case of Former Senator Quay, suggested that a time be fixed for a vote on the case. In the course of his remarks he intimated that certain senators were throwing obstacles in the way of a vote and indicated that Mr. Gallinger was one of those senators.

Mr. Gallinger quietly replied that he desired to be heard on the question, but had not had the opportunity to speak.

To this statement Mr. Penrose retorted that the New Hampshire senator had assured him that he did not expect to speak on the Quay case.

Instantly Mr. Gallinger was on his feet and, with evident feeling and great vehemence, replied as above quoted.

"I do not know whether I do not speak the truth," hotly replied Mr. Penrose, "or whether the senator from New Hampshire failed to tell me the truth."

Mr. Gallinger retorted that the whole proceeding of Mr. Penrose was unmanly and beneath his notice.

The proposition to fix a time for a vote was postponed, but it was some time before the excitement subsided.

After the morning business had been disposed of today the senate took up the Puerto Rican appropriation bill. Amendments of the senate committee, limiting the appropriations to revenues collected prior to Jan. 1, 1900, having been agreed to Thursday, a vote was taken on Mr. Allen's amendment declaring the constitution extended over the island. The amendment was laid on the table by a vote of 36 to 17.

Mr. Jones of Arkansas withdrew the amendment he offered, and in place offered an amendment proposing free trade between the United States and Puerto Rico. It differs from the first amendment Mr. Jones offered, as the one proposed provided that money collected should be repaid to those who had paid it.

The District of Columbia appropriation bill carrying \$6,608,378, was passed by the house and also a bill granting the abandoned Fort Hayes military reservation to the state of Kansas for the experimental station and Normal school purposes.

Coinage of Silver.

Washington, March 16.—The mints of the United States will be busy for some time to come in undertaking to carry out the provisions of the act that has just become law and that permits the secretary of the treasury to add \$20,000,000 to the stock of subsidiary coinage.

The authority to coin silver of the small denominations has been obtained specifically from time to time, but has been restricted to small amounts, the supporters of the free coinage of silver having systematically resisted the increase of the supply of minor silver.

Trust Committees.

Washington, March 16.—Chairman Ray of the house committee on judiciary has appointed the special committees on trusts: Ray of New York, Jenkins of Wisconsin, Overstreet of Indiana and Littlefield of Maine, Republicans; Terry of Arkansas, Lanham of Texas, and Elliott of South Carolina, Democrats. This special committee will consider all bills and resolutions relating to trusts.

Standard Oil Dividends.

New York, March 16.—The Standard Oil company Thursday disbursed \$20,000,000 in dividends. The directors declared a few weeks ago the regular dividend of 3 per cent on the \$100,000,000 common stock and 17 per cent in an extra cash dividend. This probably is the largest cash disbursement ever made at any one time in the stock of a single corporation.

High Prices for Cotton.

Sherman, Tex., March 16.—A big cotton sale took place here. Scott & McKinn of this city, have held 504 bales of cotton since September last. Berge, Forbes & Co., purchased 469 bales at 9 1/2 cents and the Denison cotton mills bought the remainder at 8.40.

Another Big Sale.

Terrell, Tex., March 16.—J. B. Porter of this city, who has been holding his cotton for a good price, sold 205 bales here at 9 cents a pound.

Amor Is Out That Germany and Great Britain Have Combined to Overthrow the Plans Laid Out by Russia.

Berlin, March 16.—The Constantinople correspondent of The Tagblatt telegraphs the following, which he claims are acquired from a very good source. During the last five months, 160,000 officers have been thrown into different armaments of Russia, both on this side across the Caspian and Merv, Tashkent and Samarkand are veritable wars, and only the impossibility at present season of the year of building barracks or harboring men in the city, has delayed the advance of further steps. A decisive manifestation against the plan may be expected before long. The correspondent adds under the remark that Russia has actually acquired a position on the Persian gulf outside the straits of Ormuz.

Statements still more sensational are furnished by the Munich Neueste Nachrichten, one of the best informed and conservative papers in Germany, which affirms, among other things, that at Britain has consented to cooperate with Germany for the purpose of setting Russian plans in Asia Minor. The semi-official organs of the German empire seize the opportunity afforded by announcements to proclaim that Baghdad railway is an international undertaking, that Asia Minor is unsuitable to German colonization and that many intend to maintain the strictest reserve in regard to questions pending between Russia and Turkey. Turkish agents are assured that Great Britain, if appealed to on the basis of the Cyprus agreement, will refuse to assist in protecting the Asiatic possession of Turkey from Russia, and Germany is not intended to snatch chestnuts out of the fire for England.

KILLED HER HUSBAND.

Adams Tells a Story Cruelly Which Caused the Killing.

Incinnati, March 16.—Charles Adams, messenger agent of the Union Pacific, came here with his wife from Omaha last October, with their two children, 12 and 5 years, was shot and killed his wife, Jessie Turman Adams. The person present was Gertrude Turman, sister of the wife, who is an actress or the name of Gertrude Hayes.

He first story was that there had been a quarrel and a suicide. Mrs. Adams, taken to the station house, told story. She said that she had been in a veritable hell for years, that husband threatened her life, that would hold her eldest son by the hair, head downwards outside of a fifth floor window, and had been habitually ill. He had recently threatened her and she provided herself with a revolver for self-defense.

She opened at supper Thursday night a terrific tirade of abuse, followed with a blow across the nose which drove her to the floor, then struck her on the head. She struggled to her feet, drew a revolver, fired one shot which struck him in the shoulder. He turned his back then she fired again. This time the bullet entered behind the right ear and went above the left eye. It was a fatal shot.

Adams was under surveillance by the police early this winter for terrifying messenger boys.

AIMS HE WAS CHEATED

er Given Bogus Papers for Stock in His Sign Concern.

New York, March 16.—Frank Mayer, well known German resident of this city, who owned a sign manufacturing company, which he valued at \$100,000, has been swindled out of it and caused the arrest of Hugh Mason, 35 years old, and George W. Vanzand, 50 years old, both of this city. Mayer and lawyer allege the men are members of the Peck's gang. The men were in \$10,000 bail.

Mayer says he determined to organize a stock company to take care of his business and his confidential clerk induced him to Mason and Vanzand men who could buy stock in the company. He said he sold them \$46,000 worth of stock in exchange for deeds for 90 acres of coal and wood land on Sandy river in Kentucky. The men, declares, said the land was worth \$600. Later Mayer says he was induced to Miss Jessie Zal, to whom says he made a present of \$5000 shares of stock in exchange for mortgages on property near Atlantic City, N. J. Mayer said he was then visited by Ellen K herself and he declares he gave 15,000 shares of stock for 3000 acres of grazing land in Bosque county, Texas. Mayer says the others met after they taken his stock and put him out of company. He says he found his stock and deeds worth nothing whatever.

Preaches in His Shirtsleeves.

Faith Center, Kas., March 16.—The Rev. Mr. Morrow is creating something of a sensation at Toronto, Kas., by preaching in his shirtsleeves and extending the United Brethren doctrine in a most emphatic manner.

DIVINE HEALER ARRESTED.

He Is Charged With Using the Mails Fraudulently.

Boston, March 16.—Francis Truth, head of the Divine Healing association which bears his name, and whose advertisements have been spread over the whole country, was arrested at his office charged with using the mails for fraudulent purposes. The prisoner was locked up. A large amount of mail matter was seized by the officers and after Truth had been taken away a thorough search of the premises was instituted.

The place was elaborately fitted up. On the first floor in one room there were about a dozen girls, typewriters and copyists, whose wages are said to have ranged from \$3 to \$8 per week. In the next room there was a printing press which turned out circulars and the magazine known as "The Divine Healer." Across the hall, which was richly furnished, are the parlors used by Truth and his wife. They are all elaborately furnished. On this floor there is the crutch room where are displayed the crutches which the "divine healer" claimed were cast aside by those who had been cured by his treatment.

The officers moved a part of this property and had it conveyed to police headquarters. There was nearly a wagonload of letters, which had evidently been accumulating for some time. These were either orders for a course of treatment, absent or otherwise, as the case might be, or else inquiries as to the wonderful promises that had been so liberally advertised.

In all there were 23 girls employed to look after the extensive correspondence.

The warrant for Truth's arrest was issued at the solicitation of the district attorney's office. It charged that by means of his representations he secured many paying members of the association, to whom he gave what he called his "absent treatment." The blanks for these "absent treatments" called for a first payment of \$5 for one month's treatment.

Truth has been conducting the establishment for about six months and has had about all the business he could attend to. He took his arrest very calmly and made no statement. Mrs. Truth was not molested. She refused to say anything regarding her husband's arrest.

It is said that Truth belongs in California. It is said that his business has brought in \$30,000 a week regularly.

Bail Allowed Hazelipp.

Frankfort, Ky., March 16.—Secretary of State Powers, Captain John Davis, W. H. Coulton and W. L. Hazelipp, were arraigned before Judge Moore at 11 o'clock this morning, and after some argument between attorneys Hazelipp was released on \$10,000 bond. Judge Moore set all the examining trials for Monday. Powers, Davis and Coulton were placed in prison.

Brown Chief of Counsel.

Louisville, March 16.—As a result of meetings held by a number of prominent citizens of Louisville it is announced ex-Governor John Young Brown has accepted employment as chief of counsel for the men arrested for the murder of Goebel. This action, its promoters say, is taken in order that no innocent man be convicted through the agency of \$100,000 reward appropriated by the legislature. Ex-Governor Brown will be chief of counsel and with him will be associated George Denny of Lexington, W. C. P. Breckinridge of Lexington, J. C. Sims of Bowling Green, A. E. Wilson of Louisville and several others. These lawyers have been instructed to push the cases to early trial and failing in that to institute habeas corpus proceedings in state and federal courts.

Amended Answer Filed.

Louisville, March 16.—The amended answer of the Republicans in the Beckham-Taylor consolidated suit involving the governorship has been filed with Judge Field in circuit court. The amended answer is made principally to perfect the record before the case is taken to the court of appeals.

Preparing a Second Appeal.

Frankfort, March 16.—Governor Taylor, it is said, has prepared a statement making a second appeal to President McKinley. A committee is to be sent to Washington to lay before the president whatever is agreed upon.

Henry Watterson's Opinion.

New York, March 16.—Henry Watterson of Louisville, is in the city. He does not think there will be any serious trouble in Kentucky.

"Matters arising out of gubernatorial contest and the assassination of Mr. Goebel," he said "are in the courts and there they will be adjudicated. I do not believe there will be any bloodshed. In my opinion the courts will decide in favor of the Democrats and I believe that all Kentuckians will respectfully abide by the decision of the courts."

"So far as the results of what may follow the arrests of the men charged with the murder of Mr. Goebel are concerned I have nothing to say, but I do not think there will be any serious effort to thwart the operations of existing law."

Rhode Island Democrats.

Providence, March 16.—The Democratic state convention met here Tuesday and nominated state officers as follows:

Governor—Nathan W. Littlefield. Lieutenant governor—Dr. Joseph Dacher.

Secretary of state—Clark Potter. General treasurer—Fayette Bartlett. Attorney general—Dennis J. Holland.

Tennessee Democrats.

Nashville, March 16.—The Democratic state executive committee met here and selected Nashville as the place and May 10 as the time, for the state convention.

OSTEOPATHY

In the Home—A Word to Mothers.

BY DR. C. L. GOBEN, D. O.

Since the larger number of the homes in any community are homes where children are the center of attraction and the center of thought for the parents, an article dealing with homes must of necessity have much to say of the little ones, so this question of Osteopathy in the home naturally shapes itself into the subject of Osteopathy for children.

We all desire for our children the highest intellectual attainments of which they are capable, and they are capable of infinitely more when their minds are kept sound by being housed in sound bodies. The physical culture now taught universally in schools, is of great help in keeping the body in good form, but if the mother at home understands something of anatomy and physiology, the sound bodies of the babies are much more likely to remain sound when the little ones have grown to school boy and girl size.

It is an excellent plan also for mothers to carefully examine the bodies of their children frequently to see that they are growing straight and developing symmetrically.

One mother made a practice of always visiting the rooms of her growing children the last thing at night before she retired, and after they were asleep, of placing them perfectly straight in their little beds. Her sons, when grown, were as straight as Indians, and their soldierly bearing was the subject of remark. Whether the mother's early care was the cause or not, it was without doubt a good practice.

How many serious deformities have begun in childhood, caused by an awkward twist, or by jumping, thus slipping the vertebrae or other bone, it might be ever so slightly, but which in neglected would cause serious trouble later on. A mother may notice that a child has one shoulder blade a little lower than the other and think nothing of it. A spinal curvature may be an easy thing to correct when it begins, but perhaps impossible when it is a case of long standing.

Dr. J. Martin Littlejohn (a member of the faculty of the American School of Osteopathy at Kirksville, Mo.) in a paper on Osteopathy, read before the Royal Society, in London, says:

"Almost instinctively people in every land seem to be turning in the same direction, toward a system in which the main principle is the adjustment of the human mechanism to itself, and the harmonizing of its organic functions."

The Osteopath claims that the human body contains within itself every force necessary to maintain it in health, provided these forces have free play to do the work which nature intends them to do. Osteopathy also places nature above all drugs and claims for her, that when unobstructed she will utilize the material given her in preserving proper harmony and equilibrium in her machine—the human body. Of these health-preserving elements the blood is chief. The blood is the life. Dr. Still, the founder of the science of Osteopathy, says, "A natural flow of blood is health, disease is the effect of local or general disturbance of the blood." When a child has croup or diphtheria, there is a contracted, congested state of the throat. Contraction of muscles of course restricts blood vessels, thus impeding free flow of blood, and disease is the result. The same is true of other parts of the body, whenever, from any cause, the free flow of blood is shut off from any part, disease will set up.

So much is being said about microbes of late years, that timid people are almost afraid to eat or sleep, or breathe, for fear of being devoured by the terrible microbes. They do not reflect that the blood is the best germicide known, when it is in a pure, healthy condition and flowing freely through every vein and artery. The fortunate body through which flows such blood is armored against the attacks of all the hosts of disease germs.

The work of the Osteopath is to see that nature gets fair play, so he directs his efforts toward that end by adjusting every member or part of the machine, that it may do its work properly. Dr. Littlejohn says: "Pain is found where a contracted muscle presses on a sensory nerve, loss of muscle function or paralysis if it presses on a motor nerve. The misplacement of a ligament or muscle, or the

obstruction of a blood vessel, calls for the mechanical skill of an operator to replace the misplacement or to remove the obstruction."

The question has often been asked, "What can Osteopathy do in children's diseases?" I have tried to show what the normal condition of the body should be, and what part the Osteopath does in keeping the system in harmony with itself, and restoring it when from any cause the harmony is lost. As the sensitive organism of the child renders it more susceptible to changes of time and temperature and the evils which lurk in the air, so through this sensitiveness does it more readily respond to treatment; and nowhere have more delightful results been obtained by Osteopathic treatment than in some of the sudden attacks to which children are liable.
